

ABOUT

Our mission is to provide non-correlated, strong and absolute returns in a tax efficient structure. The fund invests in life settlements and targets returns in the 10% to 14% range after fees. We use the latest actuarial information for all our investments, and we apply a valuation methodology that is transparent and accountable. Combined with a competitive fees structure, we feel we are the most investor-aligned open-ended life settlement fund in the market. Contact us through www.boagf.com or email the team.
